OBJECTIVE

Senior Software Engineering student with hands-on experience in software development, data analytics, and machine learning. Currently interning as a Data Scientist at Rize, contributing to AI-driven chatbot development, interactive dashboards, and machine learning models. Skilled in Python, data manipulation (Pandas, SQL), and statistical analysis. I am seeking new opportunities to apply my data science and analytics expertise to drive innovation and deliver data-driven insights for impactful business solutions.

EDUCATION

Prince Mohammed Bin Fahd University,
Bachelor of Science in Software Engineering

Sep 2022 – Dec 2025 | Dhahran, Saudi Arabia

Queen Mary University of London,
Foundation Year in Economics and Finance

Sep 2021 – Jun 2022 | London, United Kingdom

PROFESSIONAL EXPERIENCE

Rize – PropTech Company, Data Analytics/Data Scientist intern

Sep 2024 – present | Riyadh, Saudi Arabia

- Developed an AI-driven chatbot for automated messaging.
- Created dashboards in Metabase for stakeholder analytics.
- Analyzed machine learning algorithms for business solutions.
- Provided data insights to inform decision-making.

Baker Hughes, Shadowing

Apr 2024 | Dhahran, Saudi Arabia

- Participated in a week-long job shadowing program, observed and learned from professionals in key areas, including R&D, Data Science, and leadership practices, from the Managing Director at Dhahran Technology Center.

Ruaa Medical, intern

Jun 2019 – Aug 2019 | Alkhobar, Saudi Arabia

- Developed and implemented the strategy of using Social media ads.
- Successfully launched the first social media marketing campaign.
- Monitored and analyzed the user traffic from the marketing campaign using Google analytics.

Sway, Co-Founder & Manager

2017 – 2019 | Alkhobar, Saudi Arabia

- Launched and managed "Choco Factory," a successful pop-up coffee, featured at over seven major events. Led a dynamic team of five, and achieved significant operational success by selling more than 2,500 cups of coffee.

LICENSES & CERTIFICATIONS

Data Scientist Nanodegree Program, (In Progress)

Sep 2024 – present

- Currently developing expertise in machine learning, data wrangling, and deep learning
- Engaged in hands-on projects focused on data preprocessing, statistical analysis, and building predictive models.

The Data Science Course: Complete Data Science Bootcamp 2024, 31 hours

May 2024 – Jun 2024

- 365 Careers, Udemy.
- Gained proficiency in Python, data analysis, machine learning, and data visualization.
- Completed projects in data preprocessing, statistical analysis, and predictive modeling.

The Complete 2024 Web Development Bootcamp, 61 hours

Jan 2024 – Mar 2024

- London App Brewery, Udemy.
- Acquired comprehensive skills in HTML, CSS, JavaScript, Node.js, Express, MongoDB, and React.
- Built and deployed a web game. <https://snokiz1.github.io/>.

VOLUNTEERING

Ithra, Volunteer

2019 – 2021 | Dhahran, Saudi Arabia

Represented Ithra by welcoming international guests for IPTC 2020. Collectively accumulating 60+ volunteering hours.
